EDUCATION

- Vellore Institute of Technology** 2022 - 2026
B. Tech Computer Science & Engineering | CGPA: 8.47
- Kendriya Vidyalaya Sector 8 RK Puram Delhi** June, 2022
Higher Secondary | CGPA: 9.2

SKILLS

- Programming Languages:** Python, C++, SQL
- Libraries & Frameworks:** NumPy, Pandas, SciPy, Seaborn, Scikit-learn
- Databases:** MySQL, MongoDB, Database Management System (DBMS), Relational Database Design
- Tools & Platforms:** Git, GitHub, Visual Studio Code, Eclipse, MATLAB, MS Excel, Canva
- Core Concepts:** Data Structures & Algorithms, Object-Oriented Programming (OOP), CN, OS

EXPERIENCE

- Software Intern – Tonbo Imaging** Nov, 2024 – Jan, 2025
 - Conducted an in-depth analysis of kernel modules and images to identify dependencies and bottlenecks, strategically disabling non-essential components to reduce boot time from 35 seconds to 28 seconds and enhance system performance.
 - Contributed to the "**Kernel Optimization for Faster Boot & Power Efficiency**" project, focusing on reducing system startup time and improving overall energy management.
- Backend Development Intern — StayChat AI** Nov, 2025 – Present
 - Integrated frontend and backend reservation APIs to design and manage complete hotel data in MongoDB Atlas** (basic info, rooms & rate plans, rules & policies, media), ensuring real-time consistency across booking workflows.

PROJECTS

- Library Management System (Python, MySQL)** May, 2023
 - Engineered a robust, command-line based Library Management System with a user-friendly menu offering 7 distinct functions for book and user management.
 - Integrated a MySQL backend to manage data across 4 distinct tables and implement full CRUD (Create, Read, Update, Delete) operations using Python's mysql.connector.
 - Developed core search functionality that allows users to find books by 3 different criteria (title, author, genre).
 - Implemented a user-activity tracker that enforces a borrowing limit of up to 3 books per user, streamlining the borrowing and return process.
- AES Image Encryptor (Front-End, Python)** Nov, 2024
 - Engineered an advanced image encryption platform utilizing the AES algorithm, which bolstered data protection measures and achieved a notable reduction in data breaches by 50% within the initial quarter.
 - Enhanced the front-end interface of an image encryption platform, establishing a user-friendly experience that streamlined over 1,000 secure image uploads weekly while ensuring data integrity.
 - Created high-performance encryption alg, optimizing data protection practices that increased processing speed by 30%.

CO-CURRICULAR ACTIVITIES

ACHIEVEMENTS

- Completed the 100 Days of Code Challenge, focusing on C++ and Data Structures & Algorithms, and solved 150+ coding problems, significantly strengthening problem-solving and algorithmic thinking skills.
- Co-authored and secured a Government of India registered copyright for "*Cool Veil*", a smart thermoelectric cooling jacket; collaborated with a multi-disciplinary engineering team to develop an innovative wearable technology solution.
- Achieved 2nd Runner-up at the SGU Hackathon, themed on Mental Health AI, for developing a culturally-aware AI-based screening platform.

ACTIVITIES

- DSW Office Member, VIT Bhopal University (Dec 2022 – Aug 2025): Contributed to planning and execution of university events, workshops, and extra-curricular activities; served as Managing Editor for the monthly newsletter (Apr 2023 – Jun 2023).
- Event Organizer, EV Club – VIT Bhopal University: Organized and managed major technical and non-technical events; led coordination efforts and supported partnership initiatives to enhance club operations.

CERTIFICATIONS

- Amazon Web Services - Introduction to Machine Learning on AWS** June 2023
- Johns Hopkins University - A Crash Course in Data Science** June 2023

ADDITIONAL

- Hobbies-** Reading, Listening to Music, Gaming, Swimming.
